

# Battery Caddy Assembly Guide

1. Fit and glue the main divider to the base as shown.

2. Fit and glue the two mid dividers to the base as shown.

3. Fit and glue the two ends to the base as shown.

4. Fit and glue the front and back to the base, sides and dividers as shown.

5. Glue a handle doubler to each side of the handle on the main divider as shown.

6. Configure your Battery Caddy compartments to fit your needs by inserting the removable dividers in place. **Do Not** glue these dividers in place if you want to be able to reconfigure your Battery Caddy.

7. Next, put your Battery Caddy into its ammo box and head off to the field for a fun day of flying!
